

Structure of the Bachelor Thesis

Have a look at the curriculum, especially at the information about the bachelor thesis.

The bachelor thesis can be written in German or in English.

The cover page forms the first page of the thesis. It is to be kept in German. An English cover page can follow the German one.

This structure of the bachelor thesis is recommended.

The table of contents is followed by the introduction and the main part, which can vary according to the content. The bachelor thesis ends with the bibliography (compulsory) and the appendix (optional).

- Cover page
- Acknowledgements
- Abstract of the bachelor thesis in English and German
- Table of contents
- Introduction
 - Motivation
 - problem statement (which problem should be solved?)
 - aim of the work
